Toward Night

Un passaggio, una soglia. Toward Night è il movimento lento verso un altrove intimo, dove il tempo si dissolve e lascia spazio al sentire. Le composizioni abitano quel momento sospeso tra luce e buio, tra fuori e dentro. Forme essenziali, tonalità profonde, materiali che accarezzano lo sguardo: ogni elemento è pensato per accompagnare il corpo e la mente in un rituale di transizione, verso la notte, verso sé.

A passage, a threshold. Toward Night is a slow and intimate journey, during which the concept of time disappears, living space for feelings. It suggests compositions with essential shapes, deep tones and intense materials, that seems to be suspended between light and darkness. Each element is designed to lead the body and the mind in a continuous transition towards the night, towards oneself.

Tre diversi materiali si fondono in un unico stile. I colori scuri e le finiture materiche di mobile, top e lavabo esaltano una composizione elegante e ricercata.

Three different materials blend in a unique style. The dark colours and materic finishing of the base, top and washbasin enhance an elegant and refined piece of furniture.

Dreamland

Uno spazio che non appartiene al reale, ma lo riflette con delicatezza. Dreamland è il luogo dove l'immaginazione plasma la materia, dove la luce si fa visione e ogni dettaglio suggerisce silenzio, sospensione, sogno. Le composizioni evocano paesaggi interiori: superfici morbide, colori eterei, geometrie leggere come pensieri che sfumano all'alba. È il bagno che diventa esperienza onirica, soglia tra il quotidiano e l'invisibile.

An idealistic space that gently reveal reality. Dreamland is the place where every detail suggests silence, suspension, dream. The compositions recall interior landscapes: soft surfaces, ethereal colors and light geometries shape furnishing ideas. The bathroom becomes a dreamlike experience, creating a threshold between the everyday life and the intangibility.

Soft and ease

Un invito alla leggerezza, al vivere senza attrito. Soft and Ease racconta la bellezza della semplicità, la quiete che nasce dalle cose essenziali. Le composizioni si sviluppano in un equilibrio gentile tra linee fluide, volumi accoglienti e tonalità rilassanti. È un'estetica del respiro, dove tutto è pensato per offrire conforto visivo e tattile. Uno spazio che non chiede nulla, ma offre calma.

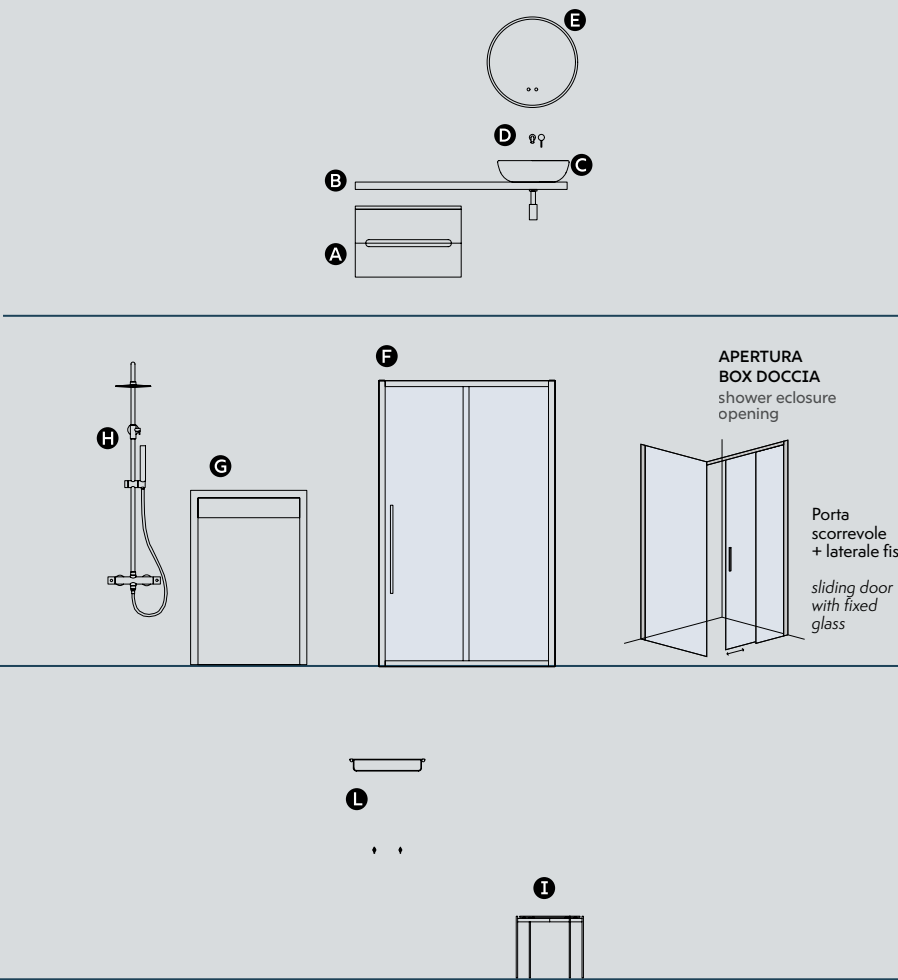

As symbol of lightness, Soft and Ease describes the beauty of simplicity. The compositions underline the relevance of essential elements through the balance of fluid lines, welcoming volumes and relaxing colors. The research for design is not only related to visual aesthetic, but also to the structure and versatility of materials. The result is a concept of furnishing that conveys nothing but calm.

Minutes of Wellbeing

Attimi sospesi, brevi ma intensi. Minutes of Wellbeing celebra il valore del tempo dedicato a sé, trasformando la routine in un piccolo rito di benessere. Ogni composizione è pensata per favorire presenza, ascolto, armonia. Superfici tattili, luci avvolgenti, proporzioni misurate: lo spazio si fa alleato del respiro, del silenzio, della cura. Bastano pochi minuti, se vissuti profondamente, per ritrovare il proprio centro.

Like brief and intense suspended moments. Minutes of Wellbeing celebrates the value of time dedicated to oneself, converting the routine into a small ritual of wellness. Each composition is designed to infuse a sense of harmony and welcoming. The space is developed through surfaces, lights and textures, to perceive an idea of deep breath, silence and quiet, where everyone can find its own center.

Water Energy

Fluido, vitale, inarrestabile. Water Energy incarna la forza rigenerante dell'acqua, elemento primario che purifica, risveglia, trasforma. Le composizioni si ispirano al suo movimento: linee decise, materiali essenziali, contrasti che evocano energia in equilibrio. È un'esperienza sensoriale in cui il bagno diventa fonte di ricarica, un luogo dove lasciar scorrere tensioni e ritrovare slancio.

An unstoppable fluid. Water Energy symbolizes the regenerating power of water, a natural element that purifies, awakens and transforms the matter. The compositions are inspired by its movement: bold lines, essential materials, high contrasts. Living the bathroom becomes a sensory experience aimed at recharging energies, leaving anxieties and looking for a new inner strength.

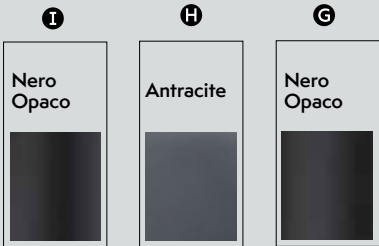

01 Water energy

02 Water energy

La materia come protagonista assoluta dell'ambiente bagno. Un lavabo freestanding che sembra scolpito direttamente nella roccia, evocando una naturale sensazione di purezza.

Material as main character in the bathroom. A freestanding washbasin seems to be sculpted directly in the stone, calling to mind natural and pure sensations.

Uno specchio ingranditore che sottolinea l'importanza della luce per esaltare ogni dettaglio.

An enlarger mirror that underlines the importance of light to enhance every detail.
